

A large-scale photograph of a coastal protection structure. The structure is a long, low wall made of large, grey, rectangular concrete blocks, extending along a shoreline. To the left of the wall is a paved road with a concrete curb. A semi-truck is driving on the road, and several other vehicles are parked or moving. To the right of the wall is a body of water. The sky is overcast. The image is framed by a large blue triangle on the right side.

EFFICIENT WAVE PROTECTION

**COASTAL PROTECTION
FOR ALL CONDITIONS**

AGGREGATES INDUSTRIES CAN SUPPLY COASTAL PROTECTION FOR ALL CONDITIONS:

QUATTRO-BLOCK

Moderate waves

ROCK ARMOUR

Intermediate waves

XBLOC ARMOUR

High waves

WHY CHOOSE XBLOC®?

- ▶ Robust and durable with a long, successful track record
- ▶ Low concrete consumption and CO₂ footprint
- ▶ Adaptability to conditions; eg rocky sea bottoms, sharp curves and roundheads
