

Some things in
life need colour

ARTEVIA™ COLOUR
Concrete

ARTEVIA™ COLOUR IS AN EYE-CATCHING RANGE OF THROUGH COLOURED READY MIXED CONCRETES THAT ARE SUITABLE FOR A WIDE VARIETY OF ARCHITECTURAL AND DECORATIVE APPLICATIONS. AVAILABLE IN A CHOICE OF VISUALLY STRIKING COLOURS, ARTEVIA COLOUR COMBINES AESTHETIC APPEAL WITH THE LONG LASTING DURABILITY OF TRADITIONAL PAVING OR STRUCTURAL CONCRETE.

With its exciting colours and subtle shades, Artevia Colour greatly enhances the architectural and visual appeal of concrete, affording the client a much greater range of design opportunities.

The distinctive colours are achieved by combining cement, coarse aggregates, sand and a choice of a wide range of pigments. While a batching plant using specific dedicated mix designs and materials ensures a consistent colour is attained.

A robust and hardwearing solution that offers permanent colouring, Artevia Colour can be supplied to comply with any specification or grade, and combines all the inherent flexibility of insitu concrete with a highly attractive and decorative finish. Through colouring ensures that visual appeal can be maintained even in the event of surface damage. It even offers a multitude of surface finishes, from power float to sponge texturing, for an array of striking visual effects.

Artevia Colour offers a cost effective solution to painted floors and an alternative to decorative surface coatings reducing construction cost and build time programme.

ARTEVIA COLOUR CAN BE USED TO CREATE IMPACT AND DESIGN FEATURES IN A MULTITUDE OF DIFFERENT APPLICATIONS INCLUDING:

- industrial, commercial and domestic flooring
- civic monuments and surrounds
- roads
- fair-faced concrete walls
- pedestrian walkways
- communal areas
- public buildings
- footpaths and cycle tracks
- parking areas and driveways
